Question: 1

Select two ways in which technical debt impacts transparency. (Choose two.)

- A. When calculated and estimated, the total amount of technical debt shows exactly how long until the Product Owner can release the Increment.
- B. It leads to false assumptions about the current state of the system, specifically of an Increment being releasable at the end of a Sprint.
- C. As development progresses and code is added, the system becomes more difficult to stabilize, which results in future work being slowed down in unpredictable ways.
- D. It enhances transparency for the Product Owner as a Development Team is not allowed to do additional feature development in a Sprint as long as there is technical debt.

Answer: B,C
